

Message to members

Dear Fellow Members,

Charles West recommended, and I have approved, the hiring of Jeff Deaver as our Assistant Operations Manager. Jeff has been trying out for the role for the past 3 months, and I am delighted to report that he performed well in all our auditions and met all of our high expectations. While Jeff does not have a captain's license, he has many years of boating experience and will be qualifying for a captain's license soon.

For those of you, who have met Jeff, you know of his talents. For those who have not, just wait till your vehicle breaks down and you will find out. (Smart members will sign up for Jeff's routine maintenance checks, and we might enter into a new LCI era where your car actually starts when you arrive on the island.) Jeff has a variety of skills, all of which are needed on the island. If you need something repaired, I would bet the farm Jeff can fix it. If you need something built, plumbed, or electrocuted☺, Jeff is your man.

If you see Jeff with 3 young girls in tow, they are his lovely daughters. I hope everyone will join me in welcoming Jeff into our LCI family.

Warm regards,

Jim Klauder
President
